

Parameter scaling factors for Material intensity RE (mat), Cost intensity RE (cost), Energy intensity Recycling (rec)

- The figure is a scatter plot with 'cost' on the x-axis (ranging from 0 to 1) and 'rec' on the y-axis (ranging from 0 to 1). It contains nine data series, each corresponding to a specific value of 'mat'. The series are color-coded and follow a general downward trend as cost increases.

mat	cost	rec
1	1.0	1.0
1	0.0	0.0
0.2	0.2	0.2
2	2.0	2.0
5	5.0	5.0
1	1.0	0.5
0.2	0.2	0.5
5	0.2	0.2
1	0.0	0.5
